Summary

User's vote record not displayed in vote history if a comment is not added

Steps to reproduce

- Launch <https://buggy.justtestit.org/>
- Click on Popular Make section
- Click any product which is not voted previously
- Leave the comment text box blank and click Vote
- Scroll down and validate the Voting history

Expected Result

User's vote record should be displayed with blank comment

Actual Result

User's vote record is missing in vote history

Murciélago

The Murciélago has been in Lamborghini's 10 U.S. dealerships since December 2001. Since then, 200 have been sold. When a dealer places an order, the car is air-freighted from Italy in a sealed container and can be disrupting American schoolchildren in as few as 10 days. There are two options only: professional paint (\$2500) and a new system (\$3500).

Lamborghini are famous for being as fragile as spring ice, so it was of some concern that our test car showed 15,500 miles as much mule as bull. "It's survived 25 road tests," asserted Lamborghini tech adviser Ken McCay, who is not Italian. "You're the only guys who broke it last summer, when a universal joint pulled free in the shift linkage." We broke it this time, too, when the whole shift lever snapped off at the root. The car came with the license "AL 1417," a reference to "Automobili Lamborghini engineering project No. 1417." Maybe project No. 148 will be devoted to shift-linkage reinforcement. What you notice first about the Murciélago is that its left-front wheel intrudes some eight inches into prime footwell territory, leaving your feet to the right. Your left foot searches for a place to rest under the clutch is about the only comfortable spot.

What you notice next is the accelerator pedal juts out of a small black box, like a paddle raised in a canon. Your heel rests on the front of this box, and you bend your toes forward to move the throttle. You can duplicate the sensation by walking around with a box of Tic Tacs in your shoe.

Diablo

This last **Diablo** is a decade of flamboyant—some daresay outrageous—sports cars first introduced in 1990 is certainly the best Diablo.

The VT is, curiously, a very high-powered four-wheel-drive beast. Situated amidships is the biggest, baddest V-12 engine we've ever tested in a Diablo. For this 2000 model, Lamborghini has lengthened the stroke by 0.10 inch, lightened the crankshaft, used lighter and stronger titanium connecting rods, and updated the old 16-bit engine-control system to a more powerful 32-bit unit. As a result, peak engine output has been promoted to 543 horsepower at 7100 rpm, 20 more than found in the last Diablo. Torque is up 11 pound-feet to 437 at 5800 rpm.

Horsepower freaks take note: This latest Diablo now has more horsepower than four four-cylinder Toyota Camrys.

Summary

Letters and special characters can input in the Age field

- Launch <https://buggy.justtestit.org/>
- Click on Profile section

Type letters or special characters in the Age field

Expected Result

User should not be able to enter the letters and [special characters in the Age field](#)

Actual Result

User can enter letters and [special characters in the Age field](#)

Screenshot

The screenshot shows a web browser at the URL buggy.justtestit.org/profile. The page header includes navigation links for Gmail, YouTube, and Maps, and a user profile section with links for Hi, Jig, Profile, and Logout. The main content area is titled "Buggy Cars Rating" and features a car illustration. Below this, there are three panels: "Basic", "Additional Info", and "Additional Info". The "Basic" panel contains fields for Login (jag2@mailinator.com), First Name (Jag), Last Name (Medisorty), and a Password field. The "Additional Info" panel contains fields for Gender (Male), Age (18th/19th), Address (3-3238 great north road New Lynn), Phone, and Hobby (Working). The "Additional Info" panel also contains a "Change Password" section with fields for Current Password, New Password, and Confirm Password, and a Language dropdown menu set to English. The Age field is highlighted with a red box, indicating the focus of the test. At the bottom of the page, there is a copyright notice for 2016 Buggy Software, Inc. and social media icons for Facebook and Twitter.

BSK-005

Summary

Sort by ranking in overall rating considers rankings as a String rather than Numeric

Steps to reproduce

- Launch <https://buggy.justtestit.org/>
- Click on Overall rating section
- Click on Rank Hyperlink to sort by rank
- Validate the sorting

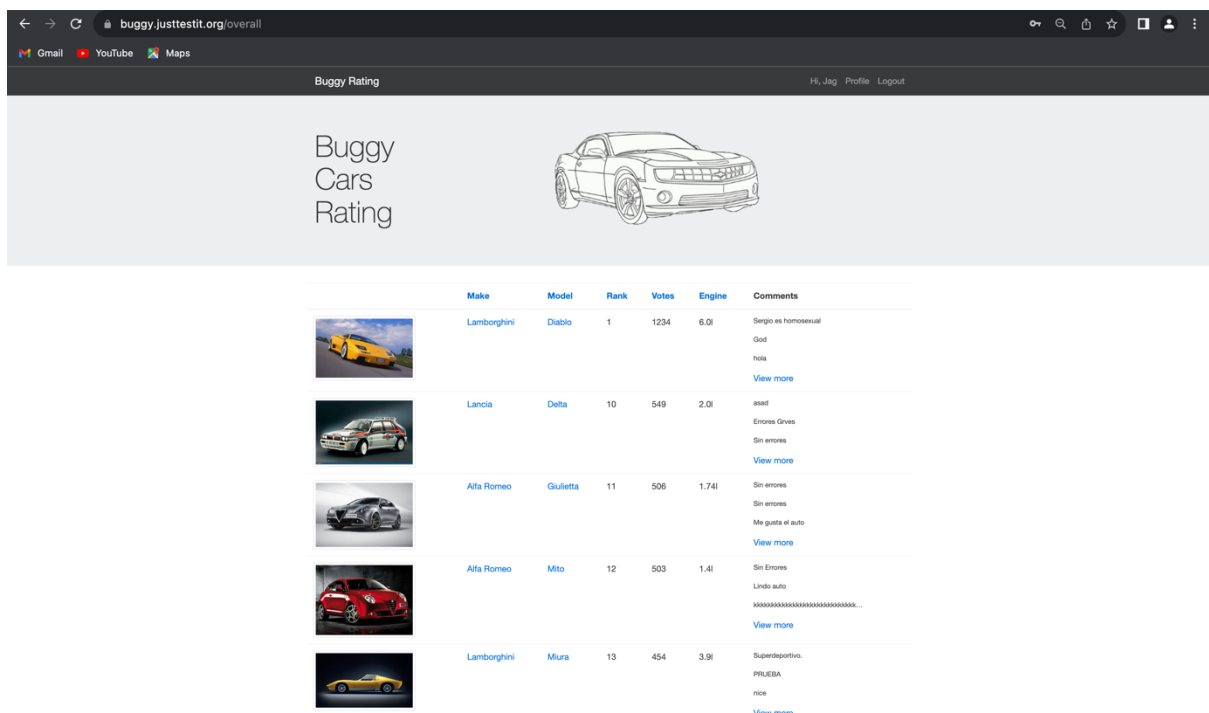

Expected Result

Products should be sorted by ranks by treating the rank as a numeric value (e.g. 1, 2, 3, ...)

Actual Result

products were sorted by rank as if the rank is a String (e.g. 1, 11, 12, 13,)

Screenshot

BSK-006

Summary

Products not sorted by Model and Rank when clicked

Steps to reproduce

- Launch <https://buggy.justtestit.org/>
- Click on Popular make section
- Click on Model and Rank hyperlinks on table header

Expected Result

The products should be sorted accordingly when clicked on respective headers

Actual Result

The headers are displayed as hyperlinks, but the products are not sorted accordingly when clicked upon

Screenshot

The screenshot shows a web browser at buggy.justtestit.org/make/ckl2phsabijs71623vk0. The page title is "Buggy Cars Rating". The main content area displays the "Lamborghini" make section. It includes a Lamborghini logo and a brief description of the brand. Below this is a table of Lamborghini models. The table has four columns: "Model", "Rank", "Votes", and "Comments". The "Model" and "Rank" headers are highlighted with red boxes. The table lists five models: Diablo, Revuelto, AVENTADOR, Veneno, and Murciélago, sorted by Rank. The "Model" header is a hyperlink, but clicking it does not sort the table by model name.

Summary

User can scroll to more pages even if there are no products

Steps to reproduce

- Launch <https://buggy.justtestit.org/>
- Click on Overall Rating section
- Keep clicking right Chevron arrow to scroll pages to the right
- Validate behaviour after user reached the last page

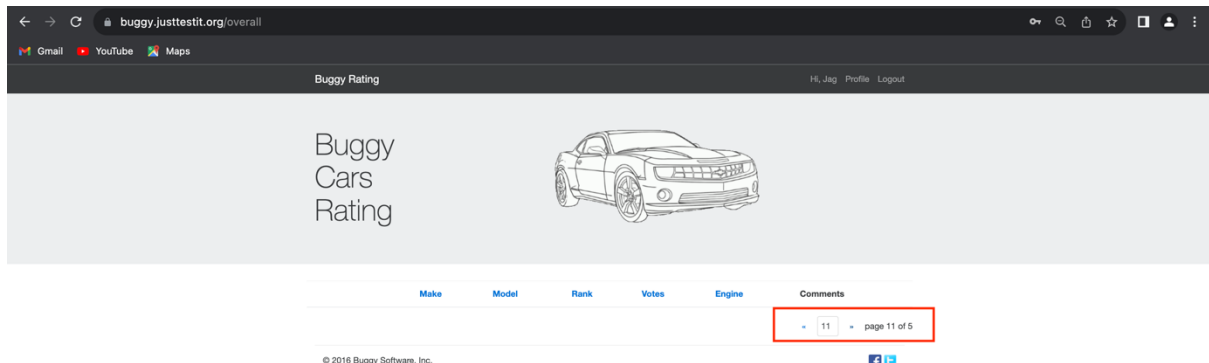

Expected Result

Right chevron arrow to scroll page to right should be disable once all products are displayed

Actual Result

User can still click right chevron arrow and scroll to blank pages

Screenshot

BSK-009

Summary

Navigation to Home page failed when clicking on Logo button

Steps to reproduce

- Launch <https://buggy.justtestit.org/>
- Click on Popular Make section
- On Popular makes page click “Buggy rating” Logo button
- Validate Navigation

Expected Result

User navigates to home page

Actual Result

User did not navigate to the home page. Stays on the same page

Proposed fix

Update the href tag with homepage URL

Screenshot

The screenshot shows a web browser with the address bar displaying `buggy.justtestit.org/make/ckl2phsabijs7162409g`. The page title is "Buggy Rating". The header contains a navigation bar with a "Buggy Rating" button highlighted by a red rectangle. The main content area features a Lancia car illustration and a table of Lancia models. The browser's developer tools are open, showing the HTML structure. A red box highlights the "Buggy Rating" button's href attribute, which is set to `/broken` instead of the home page URL. The URL bar at the bottom shows `https://buggy.justtestit.org/broken`.

Model	Rank	Votes	Comments
Rally 037	1	689	wow wow Veloz View more
Delta	2	549	asad Emores Greves Sin errores View more
Stratos	3	129
